

Nouha Mkhinini

SOC Analyst | Cybersecurity Analyst

Email: nouha.mkhinini@gmail.com | LinkedIn: linkedin.com/in/nouha-mkhinini | Portfolio: <https://nouha-mkhinini-portfolio.netlify.app/>

SUMMARY

Cybersecurity analyst with hands-on experience in network security, detection engineering, and incident response. Built labs simulating real-world attacks (MITRE ATT&CK, Active Directory ransomware, SIEM monitoring with Wazuh/Splunk) to strengthen threat detection and response capabilities. Skilled in firewall configuration, SIEM analysis, and security monitoring.

PROFESSIONAL EXPERIENCE

Networking & IT Instructor, IMSET, Sousse, Tunisia

10/2025 – 01/2026

- Guided 30+ students per cohort through secure network design concepts and best practices, including segmentation, addressing, and protocol selection, across 12–14 weeks of instruction.
- Supported troubleshooting of 50+ connectivity and configuration issues in simulated environments.
- Developed 20+ structured technical resources (TDs, labs, exercises, and evaluations) aligned with industry networking standards.

Graduation Internship - Cybersecurity, Vision Age VFX, Sousse, Tunisia

02/2025 – 06/2025

- Conducted risk analysis on over 50 endpoints, contributing to successful TPN+ compliance certification.
- Configured secure network infrastructure for 3 departments, implementing Sophos Firewall, 6 VLANs, site-to-site VPN, and Active Directory policies.
- Developed an internal auto-sorting tool (OCR, FFMPEG, Python) with a GUI, reducing manual sorting time by 70%
- Drafted over 10 technical documents and checklists to support internal audits and streamline compliance reporting

EDUCATION

Master's Degree in Cybersecurity

09/2023 – 06/2025

Higher Institute of Computer Science and Communication Technologies, Sousse

Bachelor's Degree in Information and Communication Technologies

09/2021 – 06/2023

Higher Institute of Computer Science and Communication Technologies, Sousse

TECHNICAL SKILLS

- SIEM & Monitoring: Wazuh, Splunk, Elastic, Security Onion
- Detection Engineering: Sigma rules, MITRE ATT&CK
- Network Security: VLANs, VPNs, Firewalls
- Incident Response: IOC analysis, Memory forensics (WinPmem)
- Systems: Windows, Linux, Active Directory
- Tools: Kali Linux, Metasploit, Suricata

ADDITIONAL INFORMATION

- **Languages:** Arabic (native), English (C1), French (B2)
- **Certifications:** CompTIA Security+ (In Progress) | Cisco CyberOps Associate | CCNA : Switching, Routing, and Wireless Essentials
